To Friends and Patrons

OLD AND NEW.

WE herewith hand you this our latest catalogue of Trees, Plants, Etc., and solicit a continuance of your patronage. We also beg to assure you that all orders will be filled with care and promptness.

Persons not acquainted with the different varieties of fruit would do well to leave the selection to us, as we shall send only such as will give general satisfaction.

When parties order specific varieties we will follow their instructions as far as possible, but as it sometimes occurs that we have run out of some variety, or might not have the age or size ordered, we reserve the right to substitute in such cases other varieties equally as good, unless instructed not to do so. This refers to small orders where there are but few trees of each variety.

Terms of payment, cash, or a sufficient guaranty that the money will be forwarded on receipt of the trees.

Remittances may be made by draft, express or money order, or by registered letter, to The Dalles, Or.

Trees will be delivered on boat or on cars at The Dalles free of charge.

Packages will be at the risk of purchaser after shipment.

The digging season commences from the first to the middle of October and continues until the first of May.

Errors and mistakes of ours will be rectified upon receipt of notice, which must be sent immediately after receipt of goods.

All correspondence relative to trees, plants, etc., cheerfully answered, and all remittances acknowledged immediately after being received.

Guarantee of Genuiness.

While we exercise the greatest care and diligence to have all our trees, etc., true to the label, and hold ourselves in readiness, on proper proof, to replace all such trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is naturally understood and agreed to between purchasers and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally paid us for said trees, etc., that may prove untrue.

Trees and Plants by Mail.

All such plants as berries, grapes, one-year-old fruit trees properly trimmed back, roses, vines and shrubs, can safely be

sent by mail to any postoffice in the United States. Anyone not convenient to a shipping point are advised of this method of sending plants.

Hints on Transplanting.

Of the many excellent treatises on fruit culture that have appeared within the last few years, one or more should be in the hands of every person intending to plant. They render it almost unnecessary for us to give any directions in that line, yet so frequently are we asked for advice in this way that we have concluded to offer a few general remarks.

The situation of the orchard having been decided upon, the ground should be deeply plowed, subsoiled and thoroughly pulverized. The holes should be dug at least one foot larger in every direction than actually required by the roots when spread out in their natural position. In planting, the top soil should be broken down into the hole and carefully worked in between every root and fiber, filling up every crevice, so that every root may be in contact with the soil, and the whole made quite firm as the filling up progresses. The tree when planted may, in light soil, stand from two to three inches deeper than they stood in the nursery, but in heavy clay or wet ground it is advisable to stand them at the same height they stood before transplanting.

Proper Distance for Planting.

Apple and Pear trees, 20 to 24 feet each way. Plums, Prunes, Apricots and Peaches, 16 to 18 feet each way. Quinces, 12 feet each way. Grapes and Blackberries, 6 to 8 feet each way. Raspberries, 4 to 5 feet each way. Currants and Gooseberries, 4 feet each way. Strawberries, 1 to 3 feet each way.

Following is the number of hills, trees or plants to the acre of given distances apart each way:

1x1.....	43,560	6x6.....5.....	1,210	14x14.....	223
1½x1½.....	19,360	7x7.....	889	16x16.....	171
2x2.....	10,890	8x8.....	680	18x18.....	152
2½x2½.....	6,860	9x9.....	538	20x20.....	108
3x3.....	4,810	10x10.....	435	25x25.....	70
4x4.....	2,722	11x11.....	360	30x30.....	48
5x5.....	1,740	12x12.....	302		

We shall feel favored if you will kindly recommend **The Dalles Nurseries** to the notice of your friends who are likely to need Trees or Plants, and shall, when requested, take pleasure in sending Catalogues, free of charge, to their address.

Very Respectfully,

R. H. WEBER, Proprietor.

APPLES.

	Each.	Per 100
5 to 6 feet	20	\$17 50
4 to 5 feet	15	12 50
3 to 4 feet	12½	10 00
